

Gokul S

B.E. in Computer Science & Engineering, 2022 - 2026

 gokulsarav2005@gmail.com |  [+91 73392 29906](tel:+917339229906) |  [Linkedin](#) |  [Github](#) |  Hosur, Tamil Nadu, India

SUMMARY

Motivated software engineer with strong skills in Java, Python, and full-stack development. Experienced in building scalable apps, machine learning models, and interactive interfaces. Eager to contribute expertise to drive innovation and impactful solutions.

EDUCATION

B.E. Computer Science - 7.8 CGPA (Till 6th SEM)

Er. Perumal Manimekalai College of Engineering, Hosur

2022 - 2026

Higher Secondary School - 75.83%

Sri Vijay Vidyalaya Matric Higher Secondary School, Hosur

2021 - 2022

PROJECTS

Portfolio

 [My Portfolio](#)

Responsive web application (React, TypeScript, Vite, Tailwind CSS) featuring dynamic components, modern UI design, optimized build tools, and modular architecture for showcasing skills and projects.

Football Analytics

AI-powered platform using ML to analyze football matches, delivering insights on possession, pass accuracy, player movement, and real-time performance prediction.

Employee Management system

Django web application for managing employee records with add, edit, and list features; uses modular app structure with models, forms, views, and Bootstrap templates for a clean, maintainable codebase.

Profile 360

Android app (Java, XML) for managing member profiles with add/edit/view/delete features and profile picture support, built with a user-friendly interface.

COURSE & CERTIFICATIONS

“Python & C” from CSC

“Cloud Architecting ” from AWS Academy

“Cyber Security foundation ” from Infosys
Springboard

“Cyber security & Ethical hacking” from
Rinex

“Android application development with
IOT” from NSIC

INTERNSHIPS & TRAINING

Web Development in python

JRM Infotech (July - Aug 2025)

 Hosur,TN

- Gained hands-on experience in web development using Python.
- Learned key tools, frameworks, and concepts relevant to modern web technologies.
- Developed problem-solving and practical coding skills through guided training.

Cybersecurity & Ethical hacking

Rinex technology (Sep - Oct 2023)

 Remote

- Worked on Cybersecurity & Ethical Hacking, focusing on penetration testing and vulnerability assessment.
- Gained exposure to real-world security practices and risk mitigation.

Cybersecurity Intern

SkillCraft technology (June - July 2025)

 Remote

- Completed a 1-month internship in Cybersecurity, learning threat analysis and system protection.
- Strengthened skills in ethical hacking and defensive security measures.

SKILLS & TOOLS

Python

Java

Android Studio

Machine Learning

C

Kali Linux

HTML
